Professional summary

Data Science graduate with Honors from Umm Al-Qura University, experienced in building end-to-end data science and AI solutions using Python, SQL, Machine & Deep Learning, NLP, BI Tools, and recommendation systems. Skilled in transforming data into actionable insights and developing intelligent applications that support decision-making and business objectives. Seeking opportunities in Data Science, Analytics, and AI-related roles.

Education

Umm Al-Qura University - College of Computing
B.Sc. in Data Science

Aug 2022 - Jun 2026

AI Engineering Bootcamp – Saudi digital academy & WeCloudData

May 2026 - Jun 2026

Completed intensive hands-on training in Machine Learning, Deep Learning, NLP, LLMs, RAG systems, AI Agents, and end-to-end AI solution development.

Experience

Intern in BSF Professional Supervision initiative

Feb 2024 – Nov 2025

- Participated in various courses and initiatives to enhance professional skills and knowledge to align with the latest trends and developments in the banking services market and work environment and recognized among top performers during the closing ceremony.

IT Intern – General Syndicate of Cars (GSC)

Mar 2025 – Jun 2025

- Completed **600** hours in the IT department, performing data analysis and reporting tasks using SQL Server to support operational decision-making and business insights.

Projects

StanceLens Arabic Stance Detection | NLP, Arabert, Allam, Llama | Graduation project

- Developed an Arabic stance detection system to analyze public attitudes toward Saudi women's participation in sports using **1,350 manually collected and annotated social media comments** from X and YouTube and evaluated transformers and LLM-based models, achieving **93% F1-Macro with AraBERT** and **91% F1-Macro with LoRA-finetuned Allam**, and conducted error analysis to identify challenges in Arabic social media text.

AI Job Intelligence System | DistilBERT, GPT, Sentence Transformers, Streamlit

- Built an AI-powered platform for job classification, semantic job recommendation, and personalized skill gap analysis using Saudi labor market data. Trained a **DistilBERT** classifier with **84% accuracy, 80% F1-score** and built a recommendation engine achieving **0.91 NDCG@10** and **0.67 Precision@10**.

Riyadh Real Estate Data Analysis | SQL, Power BI

- Analyzed **10,000** Riyadh real estate data using **SQL** and visualized insights in **Power BI** dashboards, exploring price trends, neighborhood comparisons, property features, and factors affecting pricing across regions.

Certification

IBM Data Science Professional Certificate, **2025**

Google Advanced Data Analytics Professional Certificate, **2025**

IBM Data Analytics Fundamentals, **2024**

Skills

Programming: Python, Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, NLTK

Data Analysis: Exploratory Data Analysis (EDA), Data Preprocessing, Data Cleaning, Statistical Analysis

Artificial Intelligence: Machine Learning, Natural Language Processing (NLP), Deep Learning, Large language models (LLMs)

Data Visualization: Tableau, Power BI, Matplotlib, Seaborn

Databases: SQL, SQL Server, Relational Databases

Soft Skills: Critical Thinking, Problem-Solving, Communication, Time management, Leadership

Languages

Arabic (Native), English (IELTS Academic Band 6.0)
